The BRK-uUSB is a breakout board designed for adding a Micro-USB interface to any prototyping or DIY project.

A standard 0.1" pitch, 5-pin header can be soldered to J1, allowing developers access to the USB signals.

The breakout board also features a grounded shield which makes it suitable for applica--tions subject to high frequency noise. Grounded mounting holes allow the board to be mounted and secured easily.

External Connectors:
μUSB Connector J2
0.1" Connector (Not Populated)........ J1
